

# St Joseph's

## Student Code of Conduct

At St Joseph's School we want to feel **respected, engaged, included, motivated** and **safe**.

In order to feel **respected** we will treat everyone with respect including ourselves. We will look after ourselves mentally and physically while being grateful for what we have.

In order to feel **engaged** we want to be included in all group discussions. We want to learn in a fun way showing that we are interested in what we are doing and accomplishing our goals in all aspects of our learning.

In order to feel **included** we will welcome each other and invite others to play with us. We will let others share their thoughts and feelings and encourage others to be themselves, feeling like they belong in a safe way.

In order to feel **motivated** we want to be encouraged to do our best. We will work harder and try to be the best version of ourselves.

In order to feel **safe** we will follow set rules and be smart with our decisions. We will respect others and deflate arguments rather than provoke them, keep our hands to ourselves and respect others' boundaries.

To help us follow the St Joseph's Student Code of Conduct we need to remind each other of the statements. We can easily follow the Student Code of Conduct if we continue to live by the MJR values. It is our responsibility to keep safe by following school rules. We will stand up for ourselves and others. If all this fails we can seek advice from our student leaders or speak to a trusted adult.
