

## **TRAFFIC MANAGEMENT PROCEDURE**

The safety of students, staff and families of the St Joseph's School Community is of paramount importance. The following procedures are in place for the safety of all.

### **BEFORE SCHOOL DROP OFF**

Kiss and Drive on Kintore Street is operational every morning. The indent section near the school gate is for drop off only. Parents/Guardians are asked not to leave their vehicles in this section at any time during drop off.

If Parents/Guardians need to enter the school with their child they are asked to park on Dandaragan Street or use the small school carpark between the oval and school. Please be careful at all times when using Dandaragan Street for parking.

### **AFTER SCHOOL PICK UP**

Kintore Street indent is for pick up only. Please remain in your car and move forward when you can, until you pick up your child/children. If parking on the church side of Kintore street ensure your child crosses with the attendant, when available, at the top of Kintore street.

Once again, the school carpark and Dandaragan Street are available for parents to leave their cars and meet their child at their classrooms.

### **REMINDERS**

Please do not do a U Turn on Kintore Street. Turn left or right on Dandaragan Street and return home using other roads.

Do not block access to the Medical centre on Kintore Street.

The bus road, entering from Long Street and exiting on Clinch Street, is out of bounds to cars **AT ALL TIMES**.

During the day Dandaragan Street is the best place to park but Kintore Street can be used, although that access gate is locked.

For large school events the Parish Carpark can be used. During Sports carnivals on our oval, cars may park around the oval fence line.

Before and after school, children are entering and leaving the grounds on foot, on bikes and on scooters, so be aware at all times and adhere to the 40km an hour speed limit.
